

Session Program

28 September 2026 to 1 October 2026

Integrative Social-Ecological Knowledge Systems: Conceptual and Computational Foundations for Ecological Synthesis

Posters

CIP, E010
Inselplatz 5 07743 Jena

Monday 28 September

16:45

Posters: Poster session and welcome reception

Poster Session | Location: CIP, E010, Inselplatz 5 07743 Jena

Adding context to network graphs to improve understanding of ecological theory and data

Building Ecological Knowledge Graphs: Lessons from CAMO Annotation

EU AI Act and implications for Global South Conservation governance: The regulatory classification of AI-based ecological synthesis tools

Integrating Heterogeneous Ecological Knowledge to Improve Automated Moth Species Classification

Re-imagining rivers' social-ecological future by centering nonhuman perspectives: A multispecies role-playing game

Traditional Ecological Knowledge System and Resource Degradation Nexus: Insights from Ngoketunjia, North West Region, Cameroon

18:15
